

*Actions in space*

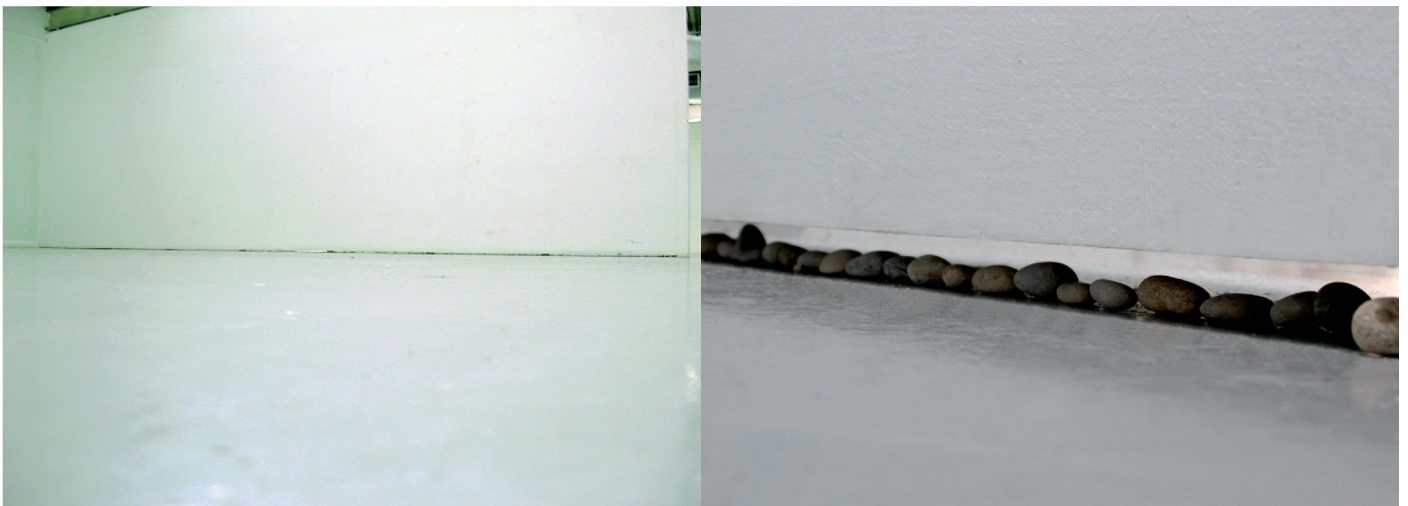

*Actions in space* are a series of interventions in the white cube, they have a specific and minimalist character. Images linked to each other, all strategies of negation of the visual, through identification - such as *corner pole*-, the concealment and dematerialization. It is a way to the threshold of the visible: the silence, a position with regard to visibility.

Action in space 1: corner pole

2009, stick / 389cm high

Action in space 2: stones under partition

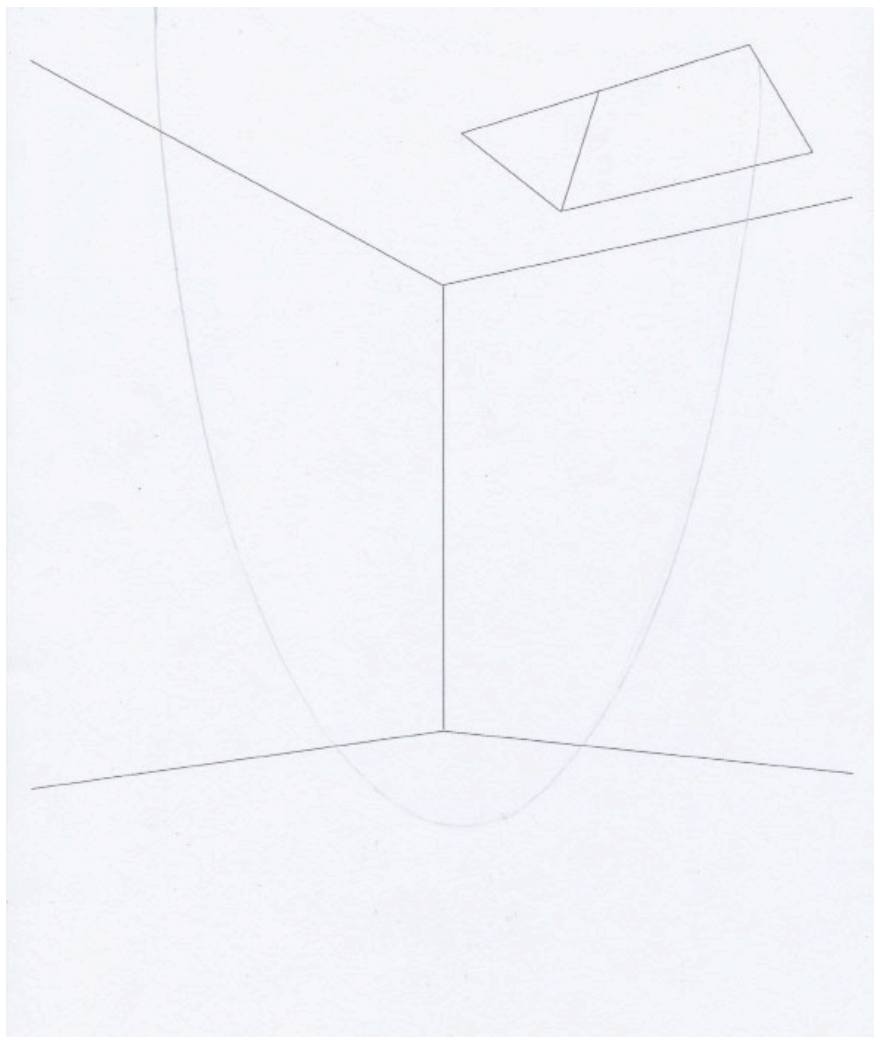

2009, 352 round stones under partition / 800 300x15cm, 2cm high

Action in space 3: room with smoke

2009, empty room, white smoke / variable dimensions

Action in space 4: join in loop the inside and the outside of the space

2009, DinA4 / drawing in inkjet
